Frequently Asked Questions

1. Does pet insurance cover pre-existing conditions?

A pre-existing condition is any illness, injury, or symptom your pet shows before enrollment or during the waiting period. Pet insurance does not cover pre-existing conditions, but a condition that is curable, cured, and has been symptom and treatment free for a period of 180 days will no longer be considered pre-existing, and can be eligible for coverage, excluding knee and ligament conditions.

2. Do I pay vet bills up front?

With pet insurance, you pay your vet bill as you normally would, and then you submit your claim to get reimbursed for eligible expenses, based on the parameters of your coverage.

3. How do I pay my deductible?

The deductible is the amount in covered expenses you must reach before reimbursement. It's not paid separately. Instead, the first eligible claims each year go toward it until it's met.

4. How long do I have to file a claim?

You can submit a claim within 270 days from the date of treatment.

5. How can I find out the status of a claim?

We'll email you when we receive your claim, if we need more information, and when it's complete. You can also check on the status of your claims anytime by clicking on the claims icon.

6. When does my annual limit reset?

The annual limit resets when your plan renews.

7. Can I change my pet's coverage?

For questions about upgrading or downgrading your policy – including terms and conditions – please contact Customer Service for more information at **1.800.905.1595**. You can also make changes by logging into the [Member Center](#).

8. Can I add pets to my account after I already enrolled?

Yes! Click Add-A-Pet in the [Member Center](#) to enroll. Additional pets receive **10% off** with our multi-pet discount.

1 What are medical records and why do we need them?

Medical records are documents from your veterinarian that detail your pet's health history, including exams, diagnoses, treatments, medications, and test results.

We use them to:

- ✔ Verify your claim details. ✔ Understand your pet's medical history.
- ✔ Make claims processed accurately and fairly.

Obtaining all your pet's medical records helps us to process claims faster and reduce delays, such as reimbursing you!

2 What do medical records look like?

When we say, "medical records", we're looking for:

- ✔ **SOAP Notes – An acronym for the standardized way vet clinics document patient visits and treatment plans.**

- ♥ *Subjective – Your observations and commentary (why you took your pet in, etc).*
- ♥ *Objective – The veterinarian's findings from examining your pet.*
- ♥ *Assessment – Any potential or definitive diagnoses.*
- ♥ *Plan – An outline of proposed treatment.*

- ✔ **X-Rays**
- ✔ **Lab Work – Results for tests such as bloodwork, urinalysis, fecal, etc.**
- ✔ **Prescription Info – Pharmacy slips that show the medication name, pet name, and date it was filled.**

Medical Records are **NOT**:

- ✘ Invoices or vet bills
- ✘ Invoice/billing history
- ✘ Hospital discharge forms
- ✘ Claim forms
- ✘ Vaccination history

3 When will we request medical records?

We will request medical records from your vet:

- ✔ When you submit your pet's **first accident or illness claim.**
- ✔ If we need clarification to process your claim.
- ✔ For claims involving a **new condition, symptom, or treatment.**

Although it's not required, you can submit records with your pet's claim or while it's in process. We only request what's necessary. Once records are attached to your account, you won't need to resubmit them! Plus, we'll take care of coordinating with your vet and keep you copied on all our requests, so it's one less thing for you to worry about.

4 Where do you send the medical records?

Most veterinarians send your pet's records directly to us – so no action is usually needed from you!

In the event you are sending us records, there are a few ways to do so:

- ✔ Via the **member center or mobile app**.
 - ♥ In tandem with your claim. ♥ While your claim is in process.
- ✔ Email: **records@customer.spotpet.com**
- ✔ Fax: **866-888-2495**

5 What if your claim is denied for needing records?

If a claim is denied due to insufficient records, don't worry! We just need additional information to determine coverage and will reopen your claim once it's received.

Possible reasons include:

- ✔ We didn't receive records from all of the vet clinics within the timeframe requested.
- ✔ We didn't receive the full volume of records within the timeframe requested.
- ✔ The invoice for your pet's visit is partially/completely missing.
- ✔ A claim form was not provided or properly filled out.

In the event this happens:

1. Obtain the missing information.
2. Send an email to **records@customer.spotpet.com**.
3. Include the claim number in the subject line.
4. In the body of the email advise you are sending the missing information and request the claim to be reviewed again.

Tips & Best Practices:

- ♥ Download records directly from your vet's portal when possible.
- ♥ Having your **pet's full medical history on file** upfront helps avoid delays or denials.
- ♥ Include your **pet's name and policy number** for easy matching.
- ♥ If we request **1 year of records** but your pet is only **3 months old**, send **all available records from any vet** your pet has visited.
- ♥ Ensure invoices show **proof of payment** – total amount, amount paid, and zero balance.
